Basic InformationInstance Configuration SourcesInstancesMonitoringScaling Rules and Event-triggered TasksScaling ActivitiesLifecycle HookNotification RulesHealth...

Each time a scaling rule is executed, or you manually add instances to or remove instances from the scaling group, a scaling activity is triggered. You can create notification rules to enable Auto Scaling to notify you of any changes in the scaling group. This way, you can obtain dynamic information about the scaling group and manage the group at the earliest opportunity.

Search by scaling activity ID. Separate multiple IDs with commas (,).Search

Scaling Activity ID	Status (All) ▾	Instances After Scaling	Start Time	End Time	Description
asa-14v7eskf70uomwb4dm	Successful	4	Nov 8, 2023 3:34 PM	Nov 8, 2023 3:34 PM	Add "1" ECS instance
asa-14vdu2hexdy5118036kk	Successful	3	Nov 8, 2023 3:33 PM	Nov 8, 2023 3:33 PM	Add "1" ECS instance
asa-14v7eskf70uokxa0bxb	Rejected <a href="#">View Rejection Reason</a>	-	Nov 8, 2023 3:32 PM	Nov 8, 2023 3:32 PM	invalid scalingRule
asa-14vgrv80684d4defbvk0	Successful	2	Nov 8, 2023 3:32 PM	Nov 8, 2023 3:32 PM	Add "1" ECS instance
